

MicroLogix
delivery is
currently
6-12 weeks!

MicroLogix Users:

**Are you experiencing long lead times for
MicroLogix 1400/1500 systems?**

SoftPLC Corp. can help get your projects out the door!

If you need a small controller solution quickly:

- A [Smart SoftPLC](#) provides similar hardware specifications to MicroLogix 1400/1500 systems
- Application Logic and documentation can be automatically converted – *little or no reprogramming needed*
- HMI/SCADA applications need few, if any, changes
- Goods are in stock

Bonus – Smart SoftPLC includes standard capabilities that could eliminate other components in your panel! For example, the Smart SoftPLC includes an embedded Ethernet switch/router, 5 serial ports (*with DF1, Modbus and ASCII support*) and inexpensive options to add an internal Remote Access Modem (*vs \$927 for a 9300-RADES*), direct Fiber connection and other features.

We've put together 2 special packages to help you make the switch:

Special Package 1:

- ✓ Smart SoftPLC with a Tealware Backplane3 Interface (SMS11-B-LT)
- ✓ 16 point digital input module (SXDC10 or SXAC10)
- ✓ 16 point relay output module (SYRY10)
- ✓ MicroLogix program and documentation conversion service
- ✓ TOPDOC NexGen programming/configuration software (*first order per customer only*)

Special Package 2:

- ✓ Smart SoftPLC with a Tealware Backplane3 Interface (SMS11-B-LT)
- ✓ 16 point digital input module (SXDC10 or SXAC10)
- ✓ 16 point relay output module (SYRY10)
- ✓ Combination Analog Module (ADA02x)
- ✓ MicroLogix program and documentation conversion service
- ✓ TOPDOC NexGen programming/configuration software (*first order per customer only*)

Contact [us](#) or your local [SoftPLC Distributor](#) for more info!

Terms and Conditions of this Offer

- Orders must be received and shipped prior to June 30th, 2010.
- SoftPLC must receive the customer's MicroLogix program and documentation files OR the customer's engineering contact information with the MicroLogix BOM we are replacing before orders will be accepted.
- Free TOPDOC NexGen is only included for the first order per customer.
- No limit on the number of SoftPLC systems per customer.
